

**Ideal for handling quarter/
half pallets and special pallets**

**Width over forks manually adjustable
(140–585 mm)**

Particularly quiet running

Robust and durable

Fast lift as standard

AM V05

Hand pallet truck for display pallets (500 kg)

The AM V05 is the perfect solution for picking up quarter and half pallets as well as full Euro pallets. It is really useful where display pallets are frequently moved e.g.

on the shop floor. Small special sized pallets can also be transported due to the adjustable forks from 140 to 585 mm, with the advantages of ease of opera-

tion, robustness and reliability similar to the standard Jungheinrich hand pallet truck.

Technical Data in line with VDI 2198 as at: 10/2009

Identification	1.1	Manufacturer (abbreviation)		Jungheinrich	1.1	
	1.2	Manufacturer's type designation		AM V05	1.2

	Performance Data	5.3	Lowering speed, laden/unladen	m/s	0.09/0.05	5.3

Make use of the advantages

Handling a quarter pallet

Handling a standard Euro pallet

A half pallet is picked up from a standard Euro pallet

Flexible usage

Loading and unloading small pallets from a standard Euro pallet cannot be undertaken with a standard hand pallet truck. The AM V05 provides the solution. Due to individually adjustable forks from 140 to 585 mm, a variety of loads can also be picked up and transported. It can also, of course, pick up standard Euro pallets.

Easy to handle

The smooth operating handle is equally suitable for left and right handed operators. Loads can be lowered smoothly with the special lowering valve.

Ergonomic handle
